The Number of Years to be Purchased

The Value of the Purchase

The Value of the Purchase

The Value of the Purchase

The Value of the Purchase

The use of the foregoing Table for  
the Purchase of Leases, &c.

THE Table consists of 5 Columns,  
The first contains any number of  
years that are to be Purchased, from 1  
year to 100.

The 2 tells you how many years and  
odd Months Purchase, such a Lease is  
worth in ready Money, 5lb. per cent.  
being allowed for the interest of the  
Money laid out.

The 3 Column shews, what the same  
is worth at 6lb. per cent. The 4 at 8lb.  
per cent. and the last at 10lb. per cent.

Example: What is a Lease of 51 years  
to come, worth in ready Money, at 5lb.  
per cent. Also,

Look in the first Column for 51 years,  
and right against it under 5lb. per cent.  
you shall find 18. 3. which shews the  
Lease is worth 18 years purchase, and 3  
months, which is a quarter of a year. So  
So that if the Rent were 10l. a year,  
then 18 times 10l. is 180l. and the quar-  
ter of the year is 2l. 10s. in all 182l. 10s.  
and so much is the Lease worth in ready  
Money, at 5l. per cent.---But if the Pur-  
chaser would have 6l. 8l. or 10l. profit  
for his Money, then let him look under  
the respective Columns of 6s. and 10l.  
per cent. and he shall have his desire.

A Table Shewing the Price of the  
Great Hundred, or 112l. at any  
Price from One Farthing the Pound  
to Eighteen Pence the Pound, and  
the contrary.

Brief

ing  
k i  
3 a  
hire  
Brief Notes for the Computation  
of Expences.

First,  
compute the Pence, but of one days  
Expence;  
many Pounds, Angels, Groats and  
Pence  
re spent in one whole Years Circum-  
ference.

So that 7 Pence a day, is 7 Pound,  
Angels, 7 Groats, and 7 Pence in the  
year, which is 10l. 12s. 11d. in the year.

Again,  
One Weeks Expence in Farthings  
makes appear  
The Shillings and Pence expended in  
a year.

And so 21 Farthings by the Week  
is 21s. 9d. 3q. in the Year.

---

His Majesty has been pleased to grant  
two Fairs for all manner of Cattel, &c.  
to be kept at Daventry in Northam-  
ptonshire, on the 29d. of July, and the  
16th. of October.

To

**T**O know the time of the day by your  
 hand, taken a straw 4 inches long:  
 Hold it upright with your thumb, then  
 turn your body and hand to the Sun, till  
 the shadow of the ball of the thumb  
 reach to the line of 12, and the shadow  
 will point at that part of the hand which  
 sheweth the hour of the day, &c.
